The Legislature.

The almost unanimous vote of the House in favor of the McDonald bill appropriating \$57,000 for the support of the Confederate Home gives evidence that partisanship has no place in Kentucky's recognition of the value of the service rendered the State by the men who wore the gray.

Out of respect to the memory of Wm. Goebel there was no session of the House Wednesday.

The Governor has signed the bill appropriating \$75,000 for the Kentucky exhibit at the World's fair and the money is now available.

A bill is pending in the Legislature to reduce street car fares to 3 cents in this State and to require street railways to provide separate coaches for colored passengers.

COAL.—We are sole agents for the celebrated Mountain Ash Jellico Coal. See us before buying.

Railroad News.

The Queen & Crescent Route has ordered three new postal cars to be built by the American Car & Foundry Co., Jeffersonville, Ind. One of the cars is to be sixty feet long and the other two fifty feet. It is necessary for them to have these new cars, on account of the United States Railway mail service requiring two mail cars on the Queen & Crescent fast Florida and New Orleans trains.

In addition to the above equipment, they have also ordered five new switch engines from the Baldwin Locomotive Works to be delivered in one month.

The Chattanooga shops will also be enlarged to three times their present capacity. On account of the extensive improvements this line is making, it will be necessary to employ at least 500 additional men in the operating department.

The equipment of the Queen & Crescent Route is to be changed and is to have high speed brakes. These brakes are of the highest efficiency and consequently enables the engineer to stop his train in the least time and distance, thereby increasing the safety of travel for both passenger and train men. The work will be done in the Ludlow and Chattanooga shops.

The Ludlow shops of the Queen & Crescent have just completed a new dining car, seating thirty-six people equipped with steam heat and electric lights for use on the Chicago & Florida special.
